New Orleans, Louisiana 70127

Dear Michael and Gary,

It is such a pleasure to thank you for Dash Lumber's commitment to the School of Architecture at Tulane University. Your company's ongoing support of the Tulane City Center has allowed our faculty and students to chart a new course for sustainable design in New Orleans. Please know that you have our lasting gratitude for your partnership in providing us with the materials needed to create innovative educational and economic opportunities in the community. I would also like to share with you here an article in the Tulane New Wave high-lighting Dash Lumber's generous contributions to Tulane and City Center.

The school is extremely fortunate to benefit from Dash Lumber's dedication to each new project, and we look forward to your continued involvement with urban outreach at Tulane.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Schwartz".

Kenneth A. Schwartz, FAIA
Favrot Professor and Dean
