The VELUX House

The possibilities are endless

The flat glass, low profile SUN TUNNEL™ skylight creates a sleek look on any roofline and is perfect for those developments where local ordinances do not allow domed skylights.

Page 48

The electric "Fresh Air" models feature pre-mounted Pick&Click!™ system brackets, making installation of sunscreen blinds a snap. A single hard wire connects to a standard junction box.

Pages 10-13

Roof windows are perfect for upper floor bonus rooms where they will be within reach for easy opening. Features include a sash that rotates inward for easy cleaning from the inside and a ventilation flap that allows for fresh air circulation when the window is closed.

Pages 32-39

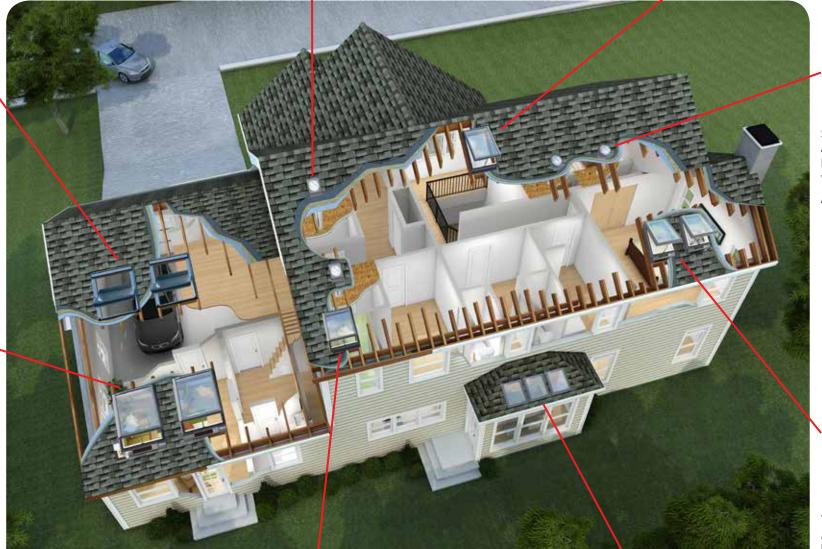

Eligible for a 30%
Federal tax credit
Receive an average of \$850* on product and

The Solar Powered "Fresh Air" Skylight features a solar panel that charges an internal battery and control system. The skylight is remote controlled and solar powered, which means it requires no additional wiring, making for easy and cost effective installation. An integrated rain sensor closes the unit in case of rain and it is a No Leak Skylight, with our 3 layers of water protection, covered by our 10-year installation warranty.

Pages 6-9

SUN TUNNEL™ skylights are a great way to bring natural light into areas where a window may be impractical.

Pages 46-50

The Solar Powered "Fresh Air" Skylight is available for both deck mounted and curb mounted applications.

Pages 6-9

The manual "Fresh Air" skylights open and close using a control rod that operates a smooth turning handle when the skylight is out of reach.

Pages 14-17

Our fixed skylights feature a prefinished white wood frame and protective aluminum or copper cladding. The streamlined exterior profile does not obstruct your roofline.

Pages 18-23

The logical choice for any skylight installation

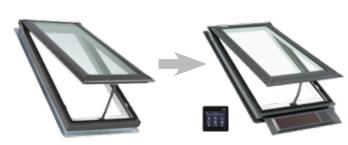

See how easy it is to upgrade to a Solar Powered "Fresh Air" Skylight

If you are considering adding daylight to your home, see how easy it is to add daylight and fresh air. With a 30% federal tax credit, homeowners will receive an average of \$850* with federal tax credit eligibility, which makes this product very affordable.

Considering just a fixed skylight?

Upgrade from a fixed skylight to a Solar Powered "Fresh Air" Skylight with all the features for around \$100 after tax credit eligibility!*

Clean, Quiet & Safe glass

Features Neat® glass coating to keep your skylight cleaner longer, leaving skylights virtually spotless

The No Leak Skylight No Leak Promise No Worries

Reduce unwanted outside noise by up to 25% less than a standard double pane glass, and up to 50% less than a plastic skylight

VELUX recommends and building codes require laminated glass for out of reach applications

Intelligent touch remote control powered by VELUX INTEGRA®

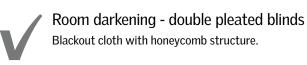

Included with your skylight is the intelligent touch remote control powered by VELUX INTEGRA®. With the touchsensitive screen and easily-understood icons, programing skylights has become simpler than ever.

Make your home more energy efficient with VELUX room darkening - double pleated blinds. The blackout cloth with honeycomb structure and an aluminum coating inside improves the insulation effect of the window as well as the indoor climate all year round. The sleek design with neat pleats makes it an attractive blind for any room. The only blind that offers blackout, privacy and insulation all-in-one.

Choosing the right glass

Clean, Quiet & Safe glass - Recommended for out of reach applications

Tempered glass (xx05)

Clean, Quiet & Safe glass (xx04) Dual pane laminated glass Standard on: VSS, VCS, VSE, VCE skylights

Clean, Quiet & Safe glass also available in the following options:

Impact (xx06) Available on: VSS, VSE, VCS, VCE, VS, VCM, FS, FCM, OPF Miami-Dade (xx07) Available on: FCM

White laminated (xx08) Available on: VSE, VCE, VS, VCM, FS, FCM, QPF

Snowload (xx10) Available on: VSE, VCE, VS, VCM, FS, FCM

Clean

Silicon dioxide makes Neat® glass exceptionally smooth. In fact, it's much smoother than ordinary glass. So water disperses evenly, "sheets off" and evaporates quickly, greatly reducing water spotting.

Titanium dioxide reacts chemically with the sun's UV rays, causing organic materials that are on the glass to decompose. It works even on cloudy days, as 80 percent of UV radiation gets through cloud cover. Then when it rains, the decomposed dirt is rinsed away, leaving the glass almost spotless. Result? Homeowners can spend less time washing windows and more time enjoying the view.

When Neat® is applied to LoE glass, it combines the ultimate in low maintenance with the best energy-conserving LoE glass on the planet. So homes stay warmer in winter, cooler in summer. Neat® LoE conserves energy year-round, too, saving homeowners up to 25 percent annually.

Ouiet

Reduce unwanted outside noise by up to 25% less than a standard double pane glass, and up to 50% less than a plastic skylight

Safe

VELUX recommends and building codes require laminated glass for out of reach applications

Choosing the right glass

Tempered glass - Recommended for in reach applications

Tempered glass (xx05)

If your skylight is within reach, our tempered glass consists of a dual pane, triple-coated with LoE3, dual-sealed and injected with argon gas. This provides excellent energy efficiency and thermal performance for year-round comfort.

Dual pane tempered glass

ENERGY STAR®

Use of ENERGY STAR® products

One of the most straightforward ways to meet the energy codes as a builder or architect, while still designing bright, airy buildings, is to use **ENERGY STAR®** certified products.

Most VELUX products are ENERGY STAR® certified in all 50 states, which means that they meet strict energy efficiency standards set by the Environmental Protection Agency (EPA). ENERGY STAR® fenestration products must have their U-factor, Visible Transmittance, and Solar Heat Gain Coefficient tested and certified by the National Fenestration Rating Council (NFRC) in order to qualify.

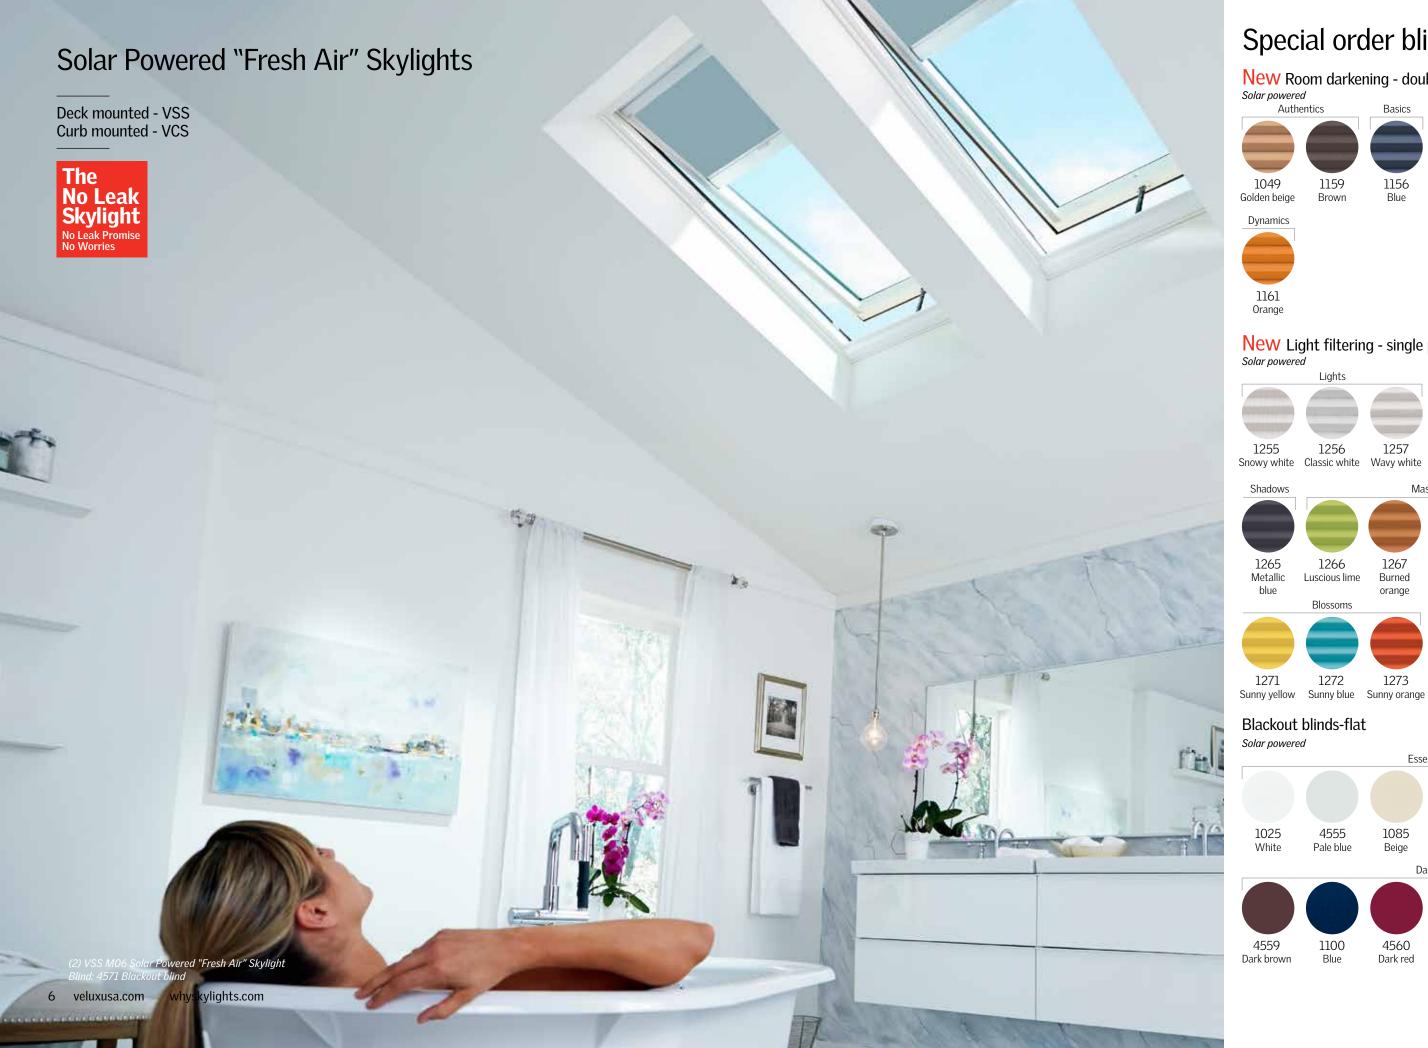

By specifying or using ENERGY STAR® products, architects and builders can use more windows and skylights, to bring much needed daylight and fresh air inside. Create more attractive buildings and more livable spaces while still meeting the local energy codes economically.

In warmer climates, there is great potential for lighting energy savings using emerging control technologies in combination with more effective daylighting products like VELUX skylights and SUN TUNNEL™ skylights.

Visit: energystar.gov for more information.

3 layers of protection

As with most of our skylights, this product carries the 10-year installation warranty.

Fixed skylights

Deck mounted - FS Deck mounted replacement skylight series - FSR

The elimination of the drywall groove in this series allows for greater installation flexibility and more positioning options when replacing existing skylights.

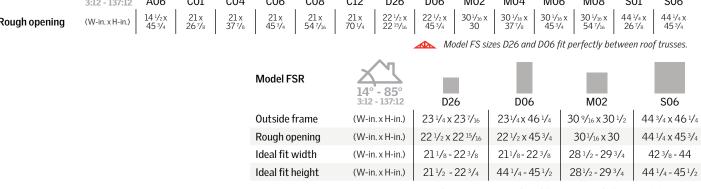

Benefits:

- Pre-finished white wood frame and protective aluminum or copper cladding.
- Integrated gaskets drain condensation to the outside.
- Streamlined exterior profile does not obstruct your roofline.
- Pre-mounted Pick&Click!™ system brackets make the installation of sunscreen blinds a snap.

Note: In general, the FSR allows a finished opening variance of 2-in. on the width and height for an ideal fit where the front of the drywall will be under the white skylight frame. An additional 2-in. in width and height variance will allow the skylight to fit the opening, but additional trim will be required.

21 x 70 ½

Model FSR D26 D06 M02 23 ½ x 23 ½ i 23¹/₄x 46 ¹/₄ $30^{9}/_{16} \times 30^{1}/_{2}$ 44 ³/₄ x 46 ¹/₄ (W-in. x H-in.) (W-in. x H-in.) 22 ½ x 22 ½/16 22 ¹/₂ x 45 ³/₄ 44 ¹/₄ x 45 ³/₄ $30^{1/16} \times 30$ (W-in. x H-in.) 211/8 - 223/8 211/8-223/8 28 1/2 - 29 3/4 42 3/8 - 44

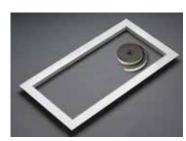

Fixed skylights

Curb mounted - FCM

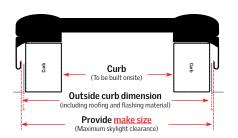

Accessory tray is required for blind installation.

Benefits:

- Integrated gaskets drain condensation to the outside.
- Streamlined exterior profile does not obstruct your roofline.
- A sunscreen accessory tray for standard site-built curbs allows for installation of VELUX Pick&Click!™ blinds

Custom size fixed curb mounted skylights - Custom FCM

Natural ventilation with a closed window

Let fresh air into your home without having to worry about security or bad weather, even when you are away or sleeping. Pull the unique top control bar once and you will allow fresh, filtered air to enter throught the ventilation flap.

White Polyurethane

Perfect for contemporary interiors and white ceilings. The polyurethane moulding has no visible joints, and therefore ensures a moisture resistant finish that requires less maintenance than lacquered natural pine.

More access to the outdoors

All of our roof windows make it easier to gain access to the outdoors.

Roof windows

Top hinged roof window - GPU Center-pivot roof window - GGU

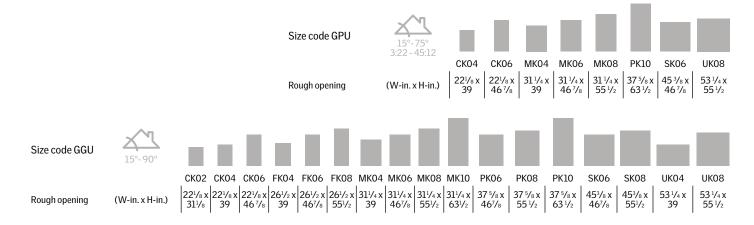

Center-pivot roof window - GGU

Benefits:

- · Enjoy panoramic views while increasing your energy efficiency and natural ventilation.
- Greatly increase the amount of natural light in your rooms.
- Convenient bottom operation the perfect choice for loft conversions with windows in easy reach.
- GGU roof windows are only available for special order.
- Convenient even with furniture placed beneath the roof window.
- Easy to open and quick to close with the top control bar.
- Low installation allows for more flexibility and better views.

Roof windows

Roof access window - GXU

Benefits:

- Easy roof access for repairs, maintenance, emergency and egress (FK06).
- Locking device keeps sash in open position.
- Slim sash and frame appearance.
- Ventilation flap.
- Can be installed as a left hinged or right hinged roof access window.
- Pre-installed Pick&Click!™ brackets for easy blind installation.

Balcony roof window

Deck mounted - GDL CABRIO™

Benefits:

- Dual-sash operation.
- Features a select wood frame with a clear finish sash coating and exterior aluminum.

VELUX SUN TUNNEL™ skylights

Flex pitched - TMF Flex low profile - TGF

Benefits:

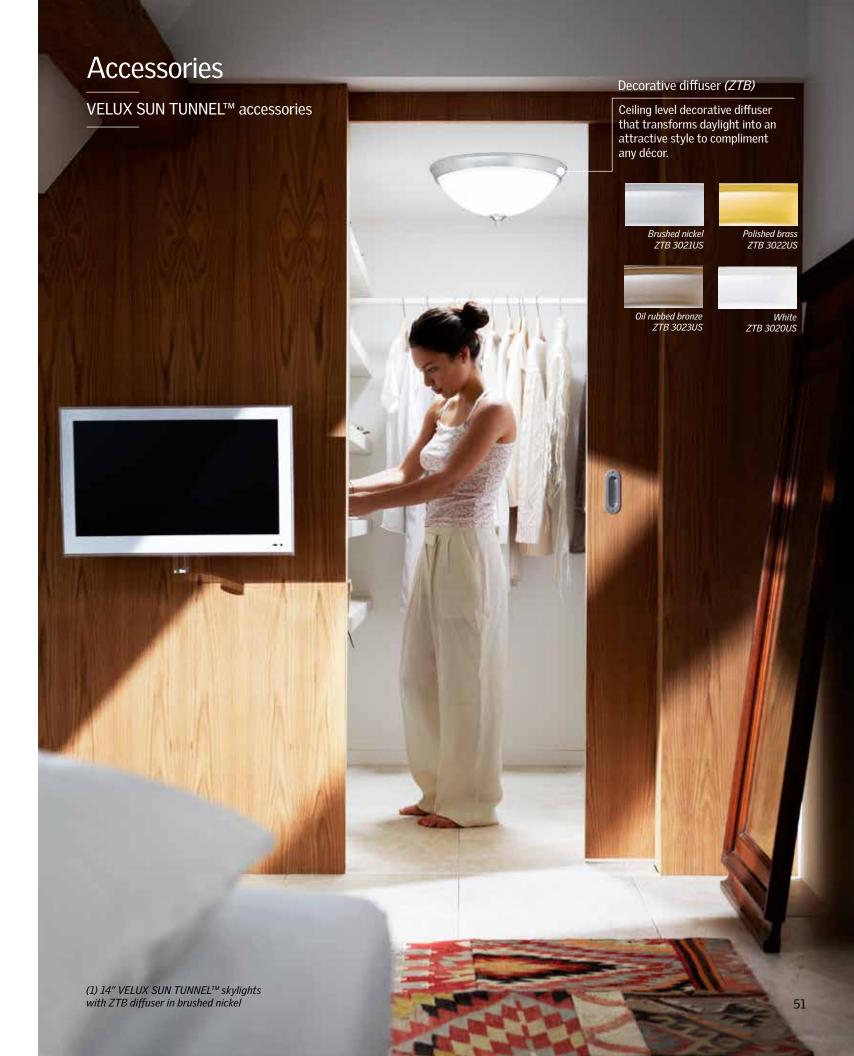

- Pitched flashing provides optimum angle for gathering light from all roof directions.
- Tile flashing available.
- Impact models available for hurricane prone areas.

- Low profile flashing provides an integrated look with the roofline.
- Pivoting tunnel system and flexible tunnel for a quick and easy installation.
- Impact models available for hurricane prone areas.

Model TMF	14° - 60° 3:12 - 20:12		014
Outside flashing	5.12 - 20.12	in.	29 x 30 1/2
Rough opening (ceiling)		in.	141/2
Rough opening (roof deck)		in.	14 1/2 x 20
Daylight area		sq. in.	138
Net wt (w/ acrylic)		lbs.	26
Standard tubing kit length		in.	96
Maximum recommended install length			8

Model TGF	14° - 60° 3:12 - 20:12		014	022
Outside flashing		in.	29 x 29	37 x 37
Rough opening (ceiling)		in.	14 1/2	221/2
Rough opening (roof deck)		in.	$14^{1/2} \times 18$	22 1/2 x 26
Daylight area		sq. in.	138	314
Net wt (w/ acrylic)		lbs.	24	36
Standard tubing kit length		in.	96	96
Maximum recommended in length	stall	ft.	8	12

Accessories

Energy kit (ZTC 0041US)

Designed to increase the energy efficiency of the VELUX SUN TUNNEL skylight while enabling it to be ENERGY STAR® certified.

Daylight controller (ZTP) Power supply for controller (ZZZ 233)

Allows the user to control the amount of daylight that enters a room. Perfect for rooms that require room darkening.

Power supply for VELUX SUN TUNNEL skylight light control devices.

Elbows (ZTE)

A durable and easy to operate elbow that can be used at the top, bottom, or middle of your installation. Multiple elbows can be joined together with rotating couplers to form a 90° bend or any other configuration needed to maneuver around obstacles.

Rotating coupler (ZTZ 211)

Easy to install tunnel and elbow coupler that enables quick tunnel connections. Rotating joint helps align tunnel sections.

VELUX ZTL electric light kit (ZTL)

Tubular daylight fixture that uses a UL approved energy efficient compact florescent bulb (26 watts) designed especially for VELUX SUN TUNNEL skylights. Available for all models.

ZTK Blackout shade

Manually block the light coming through the SUN TUNNEL skylight in seconds with a manual blackout blind.

Available for the 10-in. and 14-in. SUN TUNNEL skylights

Rigid tube (ZTR)

24-in. tunnel sections manufactured with the Flexi Loc™ tunnel connector system reduces tunnel installation time in half while delivering the highest quality daylight into the space below.

Exterior fire band (ZZZ 192)

Fire band provides the dome edge protection needed for installation on Class B and C rated roofs.

Tile flashing for 10-in. and 14-in. pitched SUN TUNNEL (ZTM)

whyskylights.com

Tile flashing accessory for pitched SUN TUNNEL skylights. Engineered with a painted, malleable aluminum water diverting sheet.

Tile flashing for curb mounted SUN TUNNEL skylights (ECW)

A pliable, pleated, and proven curb mounted tile flashing system for VELUX curb mounted SUN TUNNEL skylights. Engineered flashing designed for tile roofing material.

Decorative diffuser

Ceiling level decorative diffuser that transforms daylight into an attractive style to compliment any décor.

Polished brass

ZTB 3022US

How to order

Choosing the right skylight for you

Choose the right location for your skylight

It's never been easier to choose the right location for your skylight Download the VELUX skylight planner app from the Apple Store or Android Market.

2 Choose the right skylight

"Fresh Air" skylights

Available options: VSS, VCS, VSE, VCE, VS, VCM, GPU, GGU, GXU, GDL CABRIO $^{\text{TM}}$

Fixed skylights

Available options: FS, FCM, QPF

SUN TUNNEL™ skylights

Available options: TLR, TCR, TMR, TGR, TMF, TGF

Choose a blind or accessory

Choose one of our in-stock factory installed blinds or choose from 80 special order blinds (pages 28-31).

In-stock Room darkening - double pleated blinds

In-stock Light filtering - single pleated blinds

In-stock venetian blind (Manual)

Federal tax credit on solar powered blinds*

Available in Room darkening - double pleated blinds, blackout blinds, light filtering - single pleated blinds and light filtering blinds

Note: Special order blinds are not pre-installed with your skylight order and require a two week lead time. Special order blinds will ship separately.

Choose the right glass

For out of reach applications

Clean, Quiet & Safe glass (xx04) - recommended

Standard on: VSS, VCS, VSE, VCE Available on: VS, VCM, FS, FCM, QPF

Clean, Quiet & Safe glass also available in the following options:

Impact (xx06)

Available on: VSS, VSE, VCS, VCE, VS, VCM, FS, FCM, QPF

Miami-Dade (xx07)

Available on: FCM

White laminated (xx08) Available on: VSE, VCE, VS, VCM, FS, FCM, QPF

Snowload (xx10)

Available on: VSE, VCE, VS, VCM, FS, FCM

For in reach applications

out of reach applications.

VELUX recommends and building codes require laminated glass for

Dual pane tempered glass (xx05)

Available on: FS, VS, FCM, VCM, QPF

Code compliance

VELUX offers a broad array of skylights and SUN TUNNEL skylights that meet the applicable performance requirements and testing and labeling standards written into the most current US Model Codes:

2015 IBC (International Building Code), 2015 IRC (International Residential Code), and 2015 IECC (International Energy Conservation Code), as well as local and regional codes that are the above (and earlier) codes.

In addition, electrical components built into VELUX products are UL listed.

Standard VELUX skylights and SUN TUNNEL products also meet or exceed applicable Powersmart requirements, in addition to those of the current and prior North American Fenestration Standards (NAFS) also known as AAMA/WDMA/CSA 101/I.S.2/A440, with one exception: copper-clad versions.

To verify these attainments on site, the products are shipped with all required labels to expedite the inspection and final acceptance process. VELUX confidently certifies through these labels that only products consistent with the tested specimens are sent to the job.

Need an installer?

Use our installer locator at veluxusa.com/installer.

Check with your local VELUX skylight dealer.

Contact VELUX Solutions at 1-866-358-3589.

We offer a Skylight Specialist program for local independent installers. A VELUX Skylight Specialist is:

Carefully screened by us.

Required to complete an extensive training program.

Provides the best solutions for your daylighting needs.

roducts with Polycarbonate domes are tested for Wind-borne debris impact and pressuling in accordance with ASTM E 1886-05 and ASTM E 1996-05. Rated for Wind Zone

NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX America Inc. offers the choice of laminated or tempered glass skylights. Miami-Dade glass, impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB). In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS OR GLASS RETENTION SCREENING IS REQUIRED IN YOUR APPLICATION.

Testing data notes

a) Production samples structurally tested and labeled in accordance with one or more of: AAMA/WDMA/CSA 101/I.S.2/A440, TAS201, 202, and 203; OSHA regulations; various ASTM methods.

b) Thermal and optical performance data are determined for skylights at 20 degree slope, and verified in accordance with NFRC procedures (where applicable) by accredited entities.

Most VELUX products are listed in the NFRC Certified Products Directory, and carry appropriate labels in accordance with NFRC's certification program. NFRC ID: VEL-N-xxx

c) Most variants have achieved WDMA Hallmark certification under No. 426-H, and/or recognition under Uniform-ES report #ER 0199 (IAPMO-ES).

In addition, Florida and TDI have listed most variants in their product evaluation/approval systems, and the FCM 07 is covered by Miami-Dade NOA #12-0233.14.
